9. QUESTION: (INCLUDE SCENARIO IF NEEDED FOR CLARITY):
 If a client is reporting that they are self employed and that they have no expenses associated with their self employment, do we still give them the 40% standard self employment expense deduction?

Is all self employment income given an expense either actuals or the standard?

10. REQUESTOR'S PROPOSED ANSWER:
 If the client states that they have no expenses associated with being self employed then we will use their self employment income with no expenses.

11. STATE POLICY RESPONSE (CFPB USE ONLY):
 MPP 63-503.413 states the individual shall choose either actual costs of producing self-employment income or a standard deduction of 40 percent of gross earned income. In this case the household chose to report their expenses of \$0 and the CWD would apply a deduction of \$0, however there are likely costs of doing business going unaccounted for and CDSS strongly encourages the CWD to review with the client their option to choose the 40% deduction.
